COURSE OBJECTIVES

This course provides an overview of psychological theories and research of relevance and application for Latino populations in the United States. Lecture course content focuses on the role of social context, culturally rooted beliefs, and culturally based behaviors in influencing development, cognition, emotion, social behavior in close relationships and within institutions, and mental and physical health. Major themes of the course include: U.S. context in which Latino experience unfolds, heterogeneity in U.S. Latino populations, research methods; U.S. acculturation; ethnic and self identity; gender; prosocial behavior and well-being; emotion expression and regulation; close relationships; intergroup relations; mental and physical health; and how psychological processes relevant to U.S. Latinos unfold in schools, the workplace and the public discourse.

The objective of the graduate seminar is to (1) consider class topics and issues in greater depth than would be available solely via lectures and (2) link class topics and issues to your emerging and on-going research programs.

COURSE TEXT AND READINGS

Articles: PDF copies of articles and book chapters that are required readings for this course will be made available to all enrolled students via the course website. You are responsible for downloading the readings and completing them on time.

COURSE WEBPAGE

You may download the PowerPoint slides shown during lecture from the course website: <https://eee.uci.edu/17s/61500>. The website is only available to enrolled students and the password is "clpsychgrad." The slides will be available for download by 8:00PM of the night before class. Please note that the slides are posted to aid your note taking. They are not a substitute for attending class. Printing the slides and elaborating on them with your own notes during lecture is the best way to use the slides and fully appreciate class material.

This syllabus is available on the class website. Revisions, announcements, handouts, additional readings, and other materials will also be posted on the website. You are responsible for checking the website periodically for updated information.

COURSE STRUCTURE AND GRADING

#1: Weekly Responses – no more than 1 page, single-spaced. Responses should contain (1) questions/comments or raise issues for discussion and (2) a thoughtful analysis of how class topics fit (or don't fit) your research program and field. These responses are due on **Thursday mornings at 10am**. Please send via email, preferably copying your text onto the body of the email.

#2: End of Quarter paper – the aim of this paper is to show that you have incorporated course content into a research idea, paper, grant proposal, etc. I am flexible about the paper topic and content; the most important thing is that the paper helps to advance your research goals and plans. Due date: TBA

Grading: Your final grade breakdown is as follows:

- 1: Weekly Responses, 50%
- 2: End of Quarter paper, 50%

CLASS POLICIES

People generally think I'm a warm and approachable person. Generally, this is true. But I also need to keep the class on track and to run a fair and democratic classroom. Therefore, I set some class policies upfront.

Enrollment, Add/Drop and Incompletes: Students are responsible for knowing and monitoring their own enrollment status. This includes checking your status, filing appropriate paperwork, and paying appropriate fees.

Enrollment in this course is regulated by the University WebReg system, which is accessible at: <http://www.reg.uci.edu/registrar/soc/webreg.html>. For this class, the system allows students to add/drop or join a computerized waitlist for the course during the first two weeks of class. If you are not currently enrolled but wish to be, it is your responsibility monitor your status and adjust it as the opportunity arises.

If you wish to drop the course, it is your responsibility to go through the proper procedures to ensure that you are dropped from the course. Be aware that there are deadlines for dropping the course without penalty. If you drop the course after the deadline, you will need the Dean's signature and you will receive a "W" on your transcript.

Incompletes will not be given in this course except under extremely rare circumstances that require documentation and adherence to University policies.

Grading Policy: Your grade will be based on completing the class readings, engaging in class participation (including turning in weekly responses), and the end of quarter paper.

Late Assignments: Late assignments are not accepted. Papers turned in after the due date (and time) will receive a zero. There are no exceptions. This policy is set up so that no one falls behind. To enforce this rule fairly, there can be no exceptions (except for extenuating circumstances of a catastrophic nature and even then, you must be extremely persuasive). So, turn in your assignments on time. I've made an effort to clearly note due dates in the class syllabus. Take note of these dates and plan accordingly.

Contacting the Professor: Dr. Campos' office is on the 3rd floor of the Social Science Tower building. Please feel free to drop in at office hours or make an appointment. Email is the most effective way to contact me. To ensure that your email message is read promptly and is not filtered, please put the course name and/or number in the subject line of your message. You can generally expect to receive responses to your email inquiries within 24 hours during the week, and 48 hours on the weekend.

Being Contacted by the Professor: You must have an active UCI email account to participate in this course. I use email to make announcements about the course as well as to correspond with you individually. I will reply to emails from non-UCI accounts, but course announcements made over email will be sent to your UCI email address, so please check this account regularly.

Course Evaluations: Course evaluations are an important factor in evaluating instructor effectiveness and making decisions about future course offerings. Please plan on taking the time to complete final class evaluations at the end of the quarter. Class evaluations will be available on the EEE system during Weeks 9 & 10.

Class Etiquette: Please be courteous to others and arrive to class on time. Late arrivals, early departures, cell phones, social media use, and "quiet conversations" are distracting and noticeable throughout the classroom. **Students must turn off cell phones during class** as well as any other electronic device (e.g., ipod, tablet) that may ring or otherwise disrupt class.

Accommodations for Students with Disabilities: I make every effort to accommodate the needs of students with disabilities. If you have a documented disability that requires assistance, you will need to go to the Disability Services Center (DSC) for coordination of your academic accommodations. The DSC phone number is (949) 824-7494 /TDD (949) 924-6272 or you can visit their website at www.disability.uci.edu. Please see their website for a detailed description of DSC policies and procedures. Please notify me as soon as possible if you plan to use these services so I can ensure that appropriate accommodations are made.

Cheating: Any student who cheats on an assignment will be given an F in the course and will not be permitted to withdraw. The UCI academic code defines cheating and provides a summary of further disciplinary actions that may be taken as a consequence of cheating. The academic code is published in the undergraduate course catalogue and is available online at: <http://senate.uci.edu/uci-academic-senate-manual/part-iii-appendices-of-the-irvine-division/academic-integrity/>. The code outlines proscribed conduct with regard to cheating and plagiarism.

In addition, students agree that by taking this course all papers may be subject to submission for textual similarity review to Turnitin.com for the detection of plagiarism. All submitted papers will be included as source documents in the Turnitin.com reference database solely for the purpose of detecting plagiarism of such papers. Use of the Turnitin.com service is subject to the Usage Policy agreement posted on the Turnitin.com website.
